

THE POWER OF YOUR MOBILE IN THE PALM OF YOUR HAND

MOTOTRBO™ LONG RANGE WIRELESS RSM

Designed for customers who depend on their high power mobile radio for system connection but must work outside of their vehicle. The MOTOTRBO Long Range Wireless Remote Speaker Microphone (RSM) allows you to maintain critical communications even on remote job site.

PROVIDING 100 METRES RANGE LINE-OF-SIGHT

With the MOTOTRBO Long Range Wireless RSM, you get a highly reliable, high performance kit that extends your mobile communications like never before. Stay connected up to 100 metres range line-of-sight, even when you have to leave the vehicle.

BLUETOOTH CONNECTIVITY

By replacing the wired connection to the mobile radio with bluetooth connectivity, you can freely move around outside your vehicle while staying in touch with your dispatch centre.

REMOTE SPEAKER MICROPHONE

Situation

Keep in touch even on remote job sites when you depend on your high power mobile radio but have to work outside your vehicle. You are a utility worker and need to check the meter readings. You have to park your truck about 100 metres away from the utility box due to access restrictions, yet you stay connected to your radio with your Long Range Wireless RSM. You communicate key readings immediately to dispatch. Get your job done safely and more efficiently.

Solution

The MOTOTRBO Long Range Wireless RSM pairs instantly with touch pairing to the mobile microphone with Bluetooth gateway. The Bluetooth microphone is compatible with MOTOTRBO DM4000 and DM3000 mobile radios. The solution works up to 100 metres away from the mobile radio, helping you go the distance you never thought possible.

KEY FEATURES

- Bluetooth connectivity for mobile communications and new applications up to 100 metres.
- Ingress Protection IP55 rating for rugged use.
- Large volume toggle with high-low switch for easy access.
- Task Light for easier visual inspection in dimly lighted places.
- 28 Hours of talk time (5:5:90) for extended operation.
- 0.5W speaker to deliver loud and clear audio.

ACCESSORIES

Get the complete kit that comes with these accessories:

RLN6544

WIRELESS RSM WITH BATTERY AND CLIP

With large push-to-talk button and volume toggle, you enjoy easy access to radio communication. This RSM instantly pairs with other devices without losing connection over 100 meters.

RLN6544

PMMN4097

MOBILE MICROPHONE WITH BLUETOOTH GATEWAY

Experience the ability to communicate immediately with the operator, without having to return to the vehicle. This mobile microphone helps your mobile workers to work safely and efficiently anywhere they go.

PMMN4097

PMMN6716
